## About us

Craftech is ISO 9001-2015 certified company based in Nashik, India. We Design, Develop and manufacture Electrical accessories for Electrical industry and Software for maintenance management. Our products are designed and built on proven technology, and tested to meet industrial customers requirements.

EnhanceMaint is a Maintenance management software that helps maintenance to improve **Asset Performance & Availability**

## Why

EnhanceMaint helps maintenance team to move from **Responsive Maintenance** to **Proactive Maintenance**

Critical Issue faced by maintenance team is lack of maintenance data to enable effective maintenance plan

## Ineffective Maintenance will lead to

- Production losses
- Increased product cost
- Higher parts rejection ratio
- Reduced Profit margins
- Customer dissatisfaction

## How EnhanceMaint will benefit maintenance function

- Organize your maintenance function
- Preserve life of your valuable assets
- Identify problem areas within no time
- Optimize Equipment PM task List
- Identify failure issues and trends comprehensively and accurately
- Analyze maintenance cost, material and labor.
- Evaluate historical maintenance data

# EnhanceMaint provides integrated maintenance function in single software
